

Activity 1: Elements of Design - Picture Assignment

TGJ20

Instructions

Using the Internet, locate large, clear pictures that illustrate the following examples of the elements of design:

Compile all the elements of design on one page with each element on a separate layer. Title the picture with the design element

Line	Colour
Shape	Mass
Value	Texture

Place the pictures in the correct order, as listed above. Think of these elements when compiling all your pictures.

Criteria:	Level 1 (50% - 59%)	Level 2 (60% - 69%)	Level 3 (70% - 79%)	Level 4 (80% - 100%)
Application				
design and plan solutions to problems	designs and plans solutions to problems with limited effectiveness	designs and plans solutions to problems with some effectiveness	designs and plans solutions to problems with considerable effectiveness	designs and plans solutions to problems with a high degree of effectiveness
select appropriate computer software and production techniques to complete projects	demonstrates limited ability to select appropriate computer software and production techniques to complete projects	demonstrates some ability to select appropriate computer software and production techniques to complete projects	demonstrates considerable ability to select appropriate computer software and production techniques to complete projects	demonstrates a high level of ability to select appropriate computer software and production techniques to complete projects
use appropriate graphics formats in preproduction documents and drawings	demonstrates limited ability to use appropriate graphics formats in preproduction documents and drawings	demonstrates some ability to use appropriate graphics formats in preproduction documents and drawings	demonstrates considerable ability to use appropriate graphics formats in preproduction documents and drawings	demonstrates a high level of ability to use appropriate graphics formats in preproduction documents and drawings
