Animation

In this activity you will explore the skills and concepts of studio production within the creation of an animation.   Your animation must include the following:

- Be at least 30 seconds in length.
- An original character.
- Include a character talking.
- Include movement of the character.
- Include a background
- Include background or appropriate mood music
- Make sure your story is has a beginning, middle and end.

Use Flash for this project.
Make sure you include a **storyboard** and script when you submit your assignment.

Level 1	Level 2	Level 3	Level 4
Script accurately and clearly describes your production in the sequence that it occurs including all dialogue, sound and action before the animation is created; many omissions	Script accurately and clearly describes your production in the sequence that it occurs including all dialogue, sound and action before the animation is created; some omissions	Script accurately and clearly describes your production in the sequence that it occurs including all dialogue, sound and action before the animation is created; few omissions	Script accurately and clearly describes your production in the sequence that it occurs including all dialogue, sound and action before the animation
