

TGJ2M Summative Cheat Sheet

Five months can be a long time and maybe you **forgot a thing or two** about the finer points of using the software in this course. Well, that means it's **time for research!** Although, since you're relearning this material, perhaps re-research would be more accurate. Either way, here are some helpful links to great resources to get you back on track:

Adobe Photoshop: For raster graphics and photo editing.

<https://helpx.adobe.com/photoshop/tutorials.html>

Adobe Illustrator: For vector graphics.

<https://helpx.adobe.com/illustrator/tutorials.html>

Adobe Premiere Pro: For film editing.

<https://helpx.adobe.com/premiere-pro/tutorials.html>

Adobe Flash: For animations and interactive web applets.

<https://helpx.adobe.com/flash/tutorials.html>

Adobe After Effects: For special effects in film and advanced titles.
